Information and Communication Technologies at School's Everyday Life 2008-2010

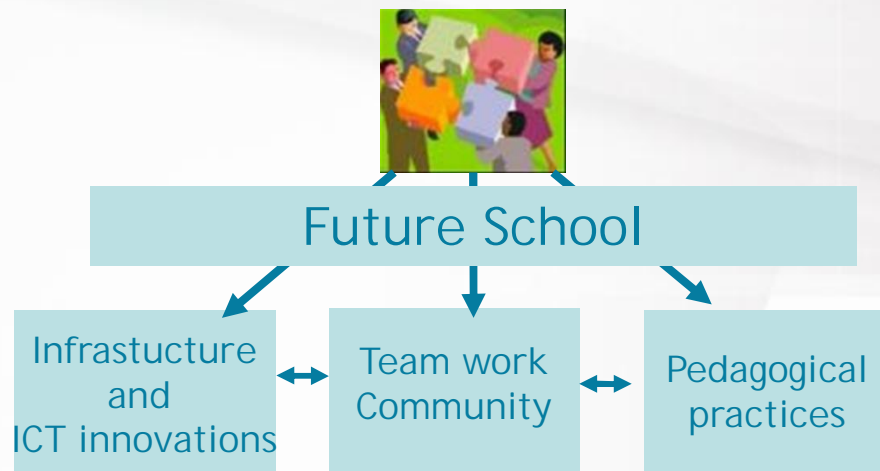

Information and Communication Technologies at School's Everyday Life Project 2008–2010

Vision

- 2011 schools will have innovative and creative ICT models and practices for wide dissemination to all Finnish schools

Goals

- to produce new knowledge and know-how for schools and educational administration about the latest developments in ICT
- to develop the educational use of ICT in a multi-dimensional way

Information and Communication Technologies at School's Everyday Life Project 2008–2010

The project is included in

- the Finnish government programme
- National ubiquitous information society policy of Finland

The project is carried out by

- Ministry of Transport and Communications (co-ordinator)
- Ministry of Education
- National Board of Education
- in co-operation with industry and commerce

Schools in the Project

- 20 schools and 12 school projects from all around Finland
 1. Espoo, Koulumestarin koulu
 2. Helsinki, Kuninkaantien molemmin puolin Project
 3. Kauniainen, suomenkielinen perusopetus
 4. Lappeenranta, Joutsenon yläkoulu
 5. Larsmo, Holm skola
 6. Oulu, Oulujoen koulu
 7. Punkalaidun, Punkalaitumen yhteiskoulu
 8. Riihimäki, Pohjolanrinteen koulu
 9. Rovaniemi, Saaren koulu
 10. Ruovesi, Kirkonkylän koulu
 11. Tampere, Epun mediareppu Project
 12. Turku, Puropellon koulu

The Results of the Project

- The results of the project will include an educational technology plan for the Finnish government's next term of office. This plan will include models, recommendations and practices related to:
 1. ICT tools, infrastructure and usability
 2. Learning environments (eg. using social media and mobile learning in school's everyday life)
 3. Content creation and learning materials
 4. Development of school communities, support of professional development and cooperation
 5. Development of public-private partnership models

Advisory Board

- The Advisory Board of the ICTs at School's Everyday Life project has 23 members from the public sector and from industry and commerce.
- Director General Timo Lankinen of the Finnish National Board of Education acts as the Chair of the Advisory Board.
