

Analyttinen lukuteoria, syksy 2011

Analytic number theory, fall 2011

What's up?

The course is over. Thanks for participation!

Exercises

Lecture notes

Content

Prerequisites

Number Theory and Function Theory II (or equivalent background; from the Function Theory II course one basically needs only the first 40%). Knowledge of measure theory is also recommended.

Lecturer

[Eero Saksman](#)

Scope

10 op.

Type

Syventävä opinto

Lecture times

Weeks 36-38, 40, 42 ja 44-49 Tu 10-12, We 9-12 C123. In addition, Exercises that are returned written to the assistant, Exercise Classes 3 hours around every second week. Preliminary time table for these: weeks 38,42,44,46,48, 50

Passing the course

One needs to get half of the returned written exercises accepted.

Literature

Will be discussed during the lectures.
