

Scientific visualization with Blender 5.12.2019

*** Scientific visualization with Blender 5.12.2019 ***

Blender is free and open source 3D creation suite, that supports the entire 3D pipeline. This course is an introduction to Blender 2.8, focusing on features useful for scientists. Hands-on exercises and demos cover the basics of Blender. Registration deadline: 22.11.2018. Read more and register: https://www.csc.fi/web/training/-/blender_2019
