IT for Science group

What we do?

IT for Science group provides support for scientific computing and applications in Faculty of Science and Institute of Biotechnology.

IT for Science is responsible for:

- Development and maintain high performance computing environments in the University of Helsinki
- Development of University’s Cubbli linux distribution
- Consulting and support services for researchers in the area of computing hardware, softwares for scientific computing, programming environments for scientific computing, data management, storages and some services produced by CSC
- Data science, machine learning and deep learning environments and infrastructures

We also work with coordination of data support of the university, VDI-environments, legacy systems and some other research related IT issues.

How to contact us?

- IT for Science group can be contacted through University's Helpdesk, from where relevant tickets are forwarded to us.
- You can send requests directly to the group with email address it4science at helsinki.fi.
- You can chat with us using the university’s jabber (click here for instructions): join the channel it4scifi@rooms.chat.helsinki.fi
