Biomathematics Day 25 March 2009

Kumpula campus, Exactum D123 (morning) and B222 (afternoon)

PROGRAM

Morning session in D123

- 9:30 - 9:45 Coffee
9:45 - 10:15 **Mats Gyllenberg**: Every deterministic population model should be formulated as a delay equation
10:15 - 10:45 Ace North & **Otso Ovaskainen**: Evolution of dispersal in heterogeneous environments
10:45 - 11:00 Coffee
11:00 - 11:30 **Petr Ondracek**: Starvation-driven migration
11:30 - 12:00 **Veera Norros**: Linking models and data on dispersal in wood-decay fungi

Afternoon session in B222

- 14:00 - 14:30 **Mike Fowler**: Non-equilibrium dynamics and community stability
14:30 - 15:00 **Lasse Ruokolainen**: Community composition & ecological drift
15:00 - 15:30 Coffee
15:30 - 16:00 **Kalle Parvinen**: Evolution of altruism in a metapopulation
