

Article Title

Authors

Addresses

Abstract

- Context
- Aims
- Methods
- Results
- Conclusions

Keywords

Introduction

- Context extended
- Review of relevant research by others
- Review of relevant research by authors
- Describe contents of the article

Theory

- Theoretical methods
 - Direct problem
 - Inverse problem
- Logical or priority order

Measurements and Observations

- Experimental instrumentation
- Data

Numerical Methods

- Algorithms
- Computational methods
- Software developed
- Software by others
- CPU time required

Results and Discussion

- Results without interpretation
- Discussion with interpretation and interrelations
- Possibly separate

Conclusion(s)

- Context sentence(s)
- Conclusions
- Future prospects

Acknowledgments

- Funding sources
- Reviewers, colleagues
