

Abbelight Seminar and Workshop Single Molecule Localization Microscopy and Automated TIRF

Abbelight is organizing a workshop that will allow you to **discover best-in-class Super-resolution microscopy techniques.**

Seminar: May 27, 15:00 EEST (Hybrid)
Room B101 Biomedicum, Helsinki

Link: <https://shorturl.at/fpqO3>

From Microscopy to Nanoscopy with Abbelight SAFE solutions:

- Introduction to SMLM and basic concepts
- Examples of applications on neurons and much more...

Workshop: May 28-30, 9:00 EEST

Hands-on sessions

Demonstration of the Abbelight SAFE instrument for:

- Automated TIRF Microscopy
- Large Field of View Nanoscopy
- 2D & 3D Nanoscopy
- Spectral demixing: Fast and intuitive simultaneous multi-color imaging innovation

With our expert

Benjamin Compans, PhD

Sr. Field Applications Scientist GLOBAL
